Tucson, AZ | 520-260-9396 | Aldoant97@gmail.com | linkedin.com/in/acasso01 | acasso01.github.io/Acasso

PROFESSIONAL SUMMARY

IT systems and network infrastructure professional with 4+ years of combined technical support, operations, leadership, and technology coordination experience across enterprise, healthcare, and small-business environments. Sole on-site IT technician supporting a campus of 200+ employees and 400+ residents. Hands-on experience with Active Directory, Microsoft Azure, Intune, Microsoft 365, Windows 10/11, Juniper Mist networking, TCP/IP, DNS, DHCP, endpoint deployment, wireless networks, VoIP, technical vendor coordination, and cross-functional technology operations. B.S. in Information Technology; pursuing an M.S. in Systems Engineering.

TECHNICAL SKILLS

Systems & Endpoint Administration: Active Directory, Microsoft Azure, Microsoft Intune, Microsoft 365, Windows 10/11, user account administration, endpoint management, hardware deployment

Networking & Infrastructure: TCP/IP, DNS, DHCP, Juniper Mist, Ethernet switching, switch port configuration, wireless access points, network segmentation, routers, firewalls, VoIP

Systems / Technical Operations: Systems troubleshooting, technology deployments, technical documentation, vendor coordination, IT asset and equipment lifecycle management, incident resolution

Project & Operations Leadership: Workflow coordination, scheduling, vendor management, staff leadership, cross-functional coordination, performance tracking, user training, HIPAA-compliant operations

PROFESSIONAL EXPERIENCE

Mather Splendido - IT Support Specialist

May 2026-Present

- Serve as the sole on-site IT technician supporting 200+ employees and 400+ residents across a large campus environment.
- Administer Active Directory user accounts and support Microsoft Intune- and Azure-managed endpoints for staff.
- Configure and troubleshoot Juniper Mist network infrastructure, including wireless access points, Ethernet switches, switch ports, and network connectivity.
- Reconfigure connectivity to meet operational requirements, including converting voice ports to data connectivity for computers and laptops.
- Deploy and troubleshoot laptops, desktops, monitors, printers, peripherals, and VoIP phones; diagnose Windows, network, hardware, and software issues.
- Coordinate service and issue resolution with network, telecom, hardware, and software vendors while tracking IT inventory and equipment lifecycle.

Aspen Dental - Office Manager / IT Coordinator

May 2022-April 2026

- Directed daily office operations while providing front-line technical support for Windows workstations, proprietary applications, network-connected equipment, and clinical technology.
- Troubleshot desktop, network, printer, and software issues to reduce interruptions to clinical and administrative operations.
- Supported specialized technology including 3Shape wireless intraoral scanners, ultrasonic cleaning equipment, and autoclave sterilization systems.
- Coordinated technical repairs, replacements, installations, and escalations with internal IT teams and third-party equipment vendors.
- Managed scheduling, patient flow, vendor coordination, and multi-location staff operations while maintaining HIPAA-compliant system and information handling.

Techboysgvs LLC - Owner / IT & Network Consultant (Part-Time)

Mar 2023-Present

- Design, configure, and troubleshoot wired and wireless networks for residential and small-business clients.
- Install and secure routers, wireless access points, switches, and firewalls based on connectivity and security requirements.
- Implement network segmentation and secure remote-access configurations; diagnose Wi-Fi, endpoint, and network issues and apply corrective configurations.
- Configure backup, system update, and endpoint security practices and install connected home security camera systems.

Verizon - Sales Manager

Apr 2018-May 2022

- Led daily team operations, scheduling, workflow coordination, and customer escalation management in a high-volume environment.
- Tracked sales performance, conversion metrics, customer satisfaction, and team targets to identify operational improvement opportunities.
- Trained and onboarded employees on internal systems, technology products, troubleshooting procedures, and customer-facing processes.
- Resolved complex customer and account escalations through root-cause identification and coordinated solutions.

EDUCATION & CERTIFICATIONS

Grand Canyon University | M.S. Systems Engineering - In Progress | Expected 2028

Capella University | B.S. Information Technology - 2026

Certifications: CompTIA Network+ - In Progress | CompTIA Security+ - Planned

Clearance: Ability to obtain U.S. Secret clearance
