PROFILE

IT support professional with 4+ years of hands-on experience in Microsoft 365 environments, data management, documentation, and compliance-driven workflows. Completed a B.S. in Information Technology with a Master's in progress and CompTIA Network+ underway. Proven ability to troubleshoot process and system issues, support end users, coordinate across teams, and keep operations running accurately under pressure. Eager to transition into a help desk, desktop support, or IT coordinator role.

EXPERIENCE

Techboysgvs LLC – Owner | IT & Network Consultant (Part time) Techbgvs.com

03/23 – Present

- Set up secure wired and wireless networks for home and small business clients, including router, firewalls, network segmentation and secure remote access.
- Installed and secured SOHO routers, access points and switches to improve WIFI coverage and reduce repeat support issues for clients.
- Guided clients on data backups, system updates and security software helping decrease security issues and downtime on their PCs and networks.
- Help set up home security cameras and systems.
- Troubleshoot Printers, Devices, Computers, TV's and all smart devices.

Aspen Dental – Office Manager / IT Coordinator

05/22–04/26

- Supported and troubleshoot Aspen Dental's proprietary EPMS3 system used for patient charting, digital X-rays, and clinical workflows — serving as the on-site point of contact for system issues.
- Performed network troubleshooting including switch resets, port identification, and connectivity issue resolution across office infrastructure.
- Diagnosed and resolved hardware issues on desktop towers and printers, minimizing downtime and escalating to vendors when needed.
- Ran and replaced ethernet cabling through walls to support X-ray equipment and workstation connectivity.
- Managed new hire onboarding in Active Directory — creating accounts, assigning access permissions, and delivering system training.
- Maintained compliance with HIPAA standards across data handling, documentation, and billing workflows in a regulated healthcare environment.

Verizon – Sales Manager (Promoted from Sales rep to Assistant manager to SM)

04/18–05/22

- Tracked team performance metrics and reported on sales targets, conversion rates, and customer satisfaction to drive operational improvements.
- Trained and onboarded team members on systems, product knowledge, and customer-facing processes in a high-volume retail environment.
- Resolved escalations and account issues using diagnostic thinking to identify root causes and deliver solutions quickly.
- Managed scheduling, daily workflows, and operational coverage while holding the team accountable to deadlines and service standards.
- Maintained accurate records of transactions, contracts, and account details across business and B2B accounts.
